Independent Auditor's Report

Members of the City Council
City of McCall, Idaho
McCall, Idaho

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of McCall, Idaho (the City) as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of McCall, Idaho, as of September 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Change in Accounting Principle

As discussed in Note 1 to the financial statements, the City has adopted the provisions of GASB Statement No. 81 *Irrevocable Split-Interest Agreements*, which has resulted in recording investments and deferred inflows of resources related to an irrevocable split-interest agreement as of September 30, 2016. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of employer's share of net pension liability – PERSI, and schedule of employer contributions, as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of McCall, Idaho's financial statements. The combining nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a report dated March 9, 2017, on our consideration of the City of McCall, Idaho's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "Eric Sully LLP". The signature is written in a cursive, flowing style.

Boise, Idaho
March 9, 2017

As management of the City of McCall, Idaho (City) we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City of McCall for the fiscal year ended September 30, 2016. Please use this information in conjunction with the information furnished in the City's financial statements.

FINANCIAL HIGHLIGHTS

- The assets of the City of McCall exceeded its liabilities at September 30, 2016 by \$72,315,962 in comparison to \$70,012,456 at September 30, 2015. Of this amount \$10,197,057 is unrestricted and may be used to meet the City's ongoing obligations to its citizens and creditors.
- During fiscal year 2016 the City's total Net Position increased \$2,303,506. Net Position of the governmental activities increased \$1,769,368 and Net Position of business-type activities increased \$534,138.
- Fund balance of governmental funds at September 30, 2016 totaled \$8,493,917. Of this amount, \$343,461 is nonspendable: 1) \$23,364 for inventory, 2) \$85,097 prepaid expenses, and 3) \$235,000 for long-term internal loans. The restricted portion of fund balance in the governmental funds totals \$1,538,084: 1) \$1,450,709 Franchise Fees for undergrounding utilities, 2) \$36,375 Highway User State Shared Revenue, and 3) \$51,000 Local Option Tax Revenue. The assigned portion of fund balance in the governmental funds is \$3,618,124 which represents the remaining fund balance of the special revenue funds: 1) \$1,143,146 Streets / Public Works, 2) \$522,319 Airport, 3) \$441,223 Library, 4) \$326,164 Recreation, 5) \$68,127 Capital Projects, and 6) \$1,117,145 Streets Local Option Taxes. The Unassigned portion of fund balance of \$2,994,248 represents the remaining fund balance of the General Fund.
- The City has \$10,633,890 in long-term debt. This includes revenue bonds payable of \$7,985,000, and a note payable in the amount of \$2,648,890.
- The City implemented GASB 81 regarding irrevocable split-interest agreements in FY2016. The implementation of GASB 81 required the recognition of assets, liabilities, and deferred inflows of resources as a result of the split-interest agreement the McCall Public Library is a beneficiary of.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City of McCall's basic financial statements, which are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

These statements are designed to provide readers with a broad overview of the City of McCall's finances, in a manner similar to a private-sector business. These statements are prepared using the accrual basis of accounting. The current year's revenues and expenses are recorded as transactions occur rather than when cash is received or paid.

There are two government-wide statements:

Statement of Net Position

Reports all of the City's assets and liabilities with the difference between the two reported as Net Position. Over time, increases or decreases in Net Position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

Statement of Activities

Reports how the City's Net Position changed during the most recent fiscal year. All changes in Net Position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City of McCall include City administration, community planning and development, public safety, parks and recreation, library, airport, public works and streets, and local option tax. The business-type activities of the City include the golf course, water system, and wastewater system.

The government-wide financial statements include not only the City of McCall itself (known as the primary government), but also a legally separate urban renewal agency, a component unit of the City. Financial information for this component unit is reported separately from the financial information presented for the primary government itself.

Fund Financial Statements

The Fund financial statements provide information about the City's major funds, not the City as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Funds may be required by law or may be established by the City Council. All of the funds of the City of McCall can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financial decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between the two.

The City maintains seven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general, airport, street / public works, recreation, and local option tax funds. These are considered major funds. Data from the other two non-major funds (library and capital projects) are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements in the "Other Financial Information" section behind the basic financial statements.

Proprietary Funds

The City of McCall only has one type of proprietary fund, the enterprise fund, which is used to report the same functions presented as business-type activities in the government-wide financial statements. Information is presented separately in the proprietary statement of Net Position and the proprietary statement of revenues, expense and changes in fund Net Position for the golf, water, and sewer funds, which are considered major funds.

Notes to the Financial Statements

The notes provide additional information that is necessary to fully understand the data presented in the government-wide and fund financial statements.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain other required and non-required supplementary information. The combining statements referred to earlier in connection with non-major funds are presented immediately after the basic financial statements as supplementary information. Budget to actual comparisons are presented as required supplementary information for the General Fund, the Street / Public Works Fund, the Airport Fund, the Recreation Fund, and the Local Option Tax Fund.

Two additional schedules are included as required supplementary information. The Schedule of Employer's Share of Net Pension Liability – PERSI and the Schedule of Employer Contributions are included as required by GASB 68.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position

Net Position measures the difference between assets and deferred outflows of resources (what the City owns) and liabilities and deferred inflows of resources (what the City owes). The City's combined assets and deferred outflows of resources exceed liabilities and deferred inflows of resources by \$72,315,962 in 2016. The largest portion of the City's Net Position, 64%, is invested in capital assets, net of related debt. Capital assets include land, buildings, equipment, machinery, and infrastructure. Unrestricted Net Position equals 11% of total Net Position.

The condensed Statements of Net Position for the years ended September 30, 2016 and 2015 are presented in the table below.

	Primary Government						Component Unit FY2016
	Governmental Activities		Business-type Activities		Total Primary Government

Governmental Activities

The City of McCall continues to experience growth in residential building resulting in an increase in planning and zoning revenues and contributions in 2016 as compared to 2015. The City of McCall saw an increase in the number of permits issued in 2016, but maintained the average building permit value as compared to the 2015 average value. Additionally, the City experienced an increase in interest rates and interest revenue on investments. All departments were conservative in spending throughout the year to ensure budget amounts were not exceeded. Quarterly budget review meetings are held to review revenue projections and the assumptions used during budget, develop in a continuing effort to keep expenditures within budget and not to exceed actual revenue receipts. Governmental activities increased the City's Net Position by \$1,769,368. In late 2015, two additional local option taxes were established by City Ordinance 936 to fund street replacement, repair and maintenance, and installation of sidewalks where applicable. The new taxes went into effect January 2016 generating \$1,237,939 in tax revenue as of September 30, 2016. The City still continues to aggressively seek grant funding for capital projects to augment city resources for capital related projects.

Business-Type Activities

The business-type activities of the City include Golf, Water, and Sewer. The enterprise funds increased the City's Net Position by \$534,138. The business-type activities continue to experience growth in residential building and new customer accounts. The City of McCall issued 64 equivalent domestic use permits in the water system in 2016 as compared to 42 in 2015, and 31 equivalent domestic permits in the wastewater system in 2016 equal to the number of permits issued in 2015. The City has seen 57.5% increase in planning and zoning fees, as compared to 2015, an indication that development activity continues to grow within the city and surrounding area.

The Golf Course continues to purchase much needed equipment with additional revenues from the Local Option Tax. The new equipment contributes to improved golf course conditions and improved playing quality at the City of McCall municipal golf course in 2016. Good course condition at opening day and throughout the season resulted in a 2.3% increase in charges for services of as compared to 2015. The McCall area produces approximately 50,000 rounds of golf spread over five golf courses with McCall Golf Course attracting 50% the area's rounds played.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

Governmental Funds

General Fund

The general fund is the principal fund used for the City's major operations. The fund balance at September 30, 2016 was \$4,752,054, an increase of 15% over the fund balance at the end of the prior fiscal year. The City's quarterly budget review process and conservative spending kept expenditures at or below budget. Fund balance also increased due to the accumulation of Franchise Fees held for undergrounding utilities and staff positions that were vacant at various times during the year.

General Fund Budgetary Highlights

General Fund

As part of the budget, Council adopts both contingent revenue and expense amounts to allow for the receipt and expenditure of small amounts of unexpected revenues without a formal budget amendment. Throughout the year, several unexpected grants, donations, and other miscellaneous revenues were received. City Council approved budget line item transfers from contingency line items to the appropriate revenue and expense accounts. These transfers did not change the original adopted budget for the fund. Contingency line items are not included in the original budget amounts on the Schedule of Revenues, Expenditures, and Change in Fund Balances – Budget and Actual – General Fund, Street / Public Works Fund, Airport Fund, and Recreation Fund.

The increase in growth during 2016 impacted the City's development related revenues in Building Permit fees, Planning and Zoning fees, Reimbursable Development Review fees, as well as Water and Sewer Connection and Hook-on fees. The building permit fee revenue showed a 41.2% increase in 2016 as compared to 2015. However, planning and zoning revenue experienced a 57.5% increase in 2016 compared to 2015.

The Tourism Local Option Tax generated approximately \$451,266 in revenue in 2016. The revenue was used internally in the Recreation, Library, Streets / Public Works, Golf, and General Fund as well as externally for programs and groups recommended by the LOT commission and approved by Council. These programs and groups included the following; 1) McCall Area Snowmobile Club, 2) Payette Lakes Ski Club, 3) McCall Chamber of Commerce, 4) Treasure Valley Transit, 5) Alpine Playhouse, 6) MCPAWS Regional Animal Shelter, 7) Nordic Ski Club, 8) McCall Winter Sports Club, 9) McCall Senior Citizens Center, 10) McCall Arts & Humanities, 11) McCall Ski Racing Team, 12) McCall Folklore Society, 13) McCall Music Society, 14) AWeSOMe, and 15) Idaho Hockey Foundation.

Capital Asset and Debt Administration

Capital Assets

At the end of 2016 the City had \$70,187,038 invested in capital assets (net of accumulated depreciation), compared to \$71,717,590 at the end of 2015. Additional information can be found in Note 6 of the financial statements.

Capital Assets as of September 30, 2016
(net of depreciation)

	Primary Government		Total
	Governmental Activities	Business-type Activities	
Land	\$7,583,418	\$1,208,847	\$8,792,265
Buildings and Improvements	1,732,412	7,123,725	8,856,137
Infrastructure	12,824,835	-	12,824,835
Improvements Other Than Buildings	6,957,357	30,737,481	37,694,838
Machinery, Equipment, and Other	844,854	488,900	1,333,754
Construction in Progress	685,209	-	685,209
Total	\$30,628,085	\$39,558,953	\$70,187,038

The City recorded current year depreciation of \$1,248,261 in governmental activities and \$1,581,798 in business-type activities.

Long-Term Debt

Business-type activity outstanding debt includes: 1) \$7,985,000 in Revenue Bonds, and 2) \$2,648,890 in Notes Payable. Detailed information on the City's long-term debt can be found in Note 8 of the financial statements. The City did not issue any new debt in 2017.

FY17 Budgetary Considerations

The 2017 budget includes several capital project including completion of the update to the City's comprehensive plan, replacement of the City's aging street sweeper, and implementation of the City's campus facility development plans, and continued emphasis on pavement rehabilitation in the Governmental Funds. In the Enterprise funds the 2017 budget includes continued Supervisory Control and Data Acquisition (SCADA) improvements, continued focus on wastewater inflow and infiltration prevention, water line replacement, and development of a water master plan utilizing Department of Environmental Quality (DEQ) grant funds and 50% city grant match. The FAA grant funded land acquisition for taxiway relocation included in the 2017 budget is postponed until 2018.

Staff continues to conduct quarterly budget reviews since this has proven to be a valuable budget management tool. The City continues to actively seek out grant opportunities to help fund projects. Management continues to evaluate and prioritize the City Capital Improvement Plan. As well as continue to seek input from the citizens of McCall with an emphasis on evaluating all funding options available to the City.

The new voter approved Local Option Tax (LOT) became effective January 1, 2016. The newly approved initiative put in place a one percent (1%) sales tax exempting food, and an additional three percent (3%) lodging tax. The proceeds from the new LOT taxes are entirely dedicated to street repair, rehabilitation and maintenance. The new LOT generated \$1,237,939 in revenue during the first nine months of 2016; far exceeding the City's revenue estimation. Commerce Street reconstruction is scheduled to begin summer of 2017 and is the first project funded by the new LOT.

Requests for Information

This report is designed to provide a general overview of the City of McCall's finances for our citizens and customers. If you have questions about this report or need additional financial information contact the Finance Office: 216 East Park Street, McCall, Idaho 83638, (208) 634-7142.

 Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position
 September 30, 2016

Fund balance - total governmental funds		\$ 8,493,917
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.		30,628,085
Some of the property taxes and special assessments receivable are not available to pay for current-period expenditures and therefore are deferred in the funds.		139,176
Compensated absences are not due and payable in the current period and therefore are not reported in the funds.		(142,239)
Net pension liabilities applicable to the City's governmental funds are not reported as fund liabilities.		(2,058,033)
Deferred outflows and inflows of resources related to pensions are applicable to future periods and, therefore, are not reported in the governmental funds.		
Deferred outflows of resources related to pensions:		
Differences between expected and actual experience	1,013,664	
Changes in assumptions	44,314	
Contributions made subsequent to measurement date	77,298	
Changes in proportionate share	<u>(1,860)</u>	
		1,133,416
Deferred inflows of resources related to pensions:		
Net difference between projected and actual investment earnings on pension plan investments	(437,991)	
Differences between expected and actual experience	<u>(238,112)</u>	
		<u>(676,103)</u>
Net position of governmental activities		<u><u>\$ 37,518,219</u></u>

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental
Funds to the Statement of Activities
Year Ended September 30, 2016

Net change in fund balances - total governmental funds	\$ 1,997,263
Amounts reported for <i>governmental activities</i> in the statement of activities are different because:	
Governmental funds report capital outlay as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays and contributed capital assets of (\$1,042,977) exceeded depreciation (\$1,248,261) in the current period.	(219,151)
Some property tax and special assessment revenue in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	10,585
Compensated absences are not recorded in the governmental funds because they are not a use of current financial resources. However, in the statement of activities, the change is recorded as an expenditure.	(4,685)
Pension expenditures are not recorded in the governmental funds because they are not a use of current financial resources. However, in the statement of activities, the change is recorded as an expenditure.	<u>(14,644)</u>
Change in Net Position	<u><u>\$ 1,769,368</u></u>

Note 1 - Summary of Significant Accounting Policies

City of McCall, Idaho (the City) incorporated in the State of Idaho on July 19, 1911. The City operates under a Council-Manager form of government and provides the following services as authorized by its charter: public safety (police), parks and recreation, community services, streets, and general administrative services.

The financial statements of the City have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

Financial Reporting Entity

These basic financial statements present the City and its component unit as required by generally accepted accounting principles. Component units are organizations that are included in the City's reporting entity because of the significance of their operational or financial relationships with the City.

The component unit column in the government-wide financial statements is the financial data of the City's single component unit, the Urban Renewal Agency (URA). URA is a separate and distinct legal entity created by state statute. The directors for URA are appointed by the Mayor and approved by the City Council. URA provides urban renewal services for the citizens of the City.

The City contributes to the multi-employer Public Employee Retirement System of Idaho (the System). The System is administered by the State of Idaho and the City is not the major participant in the plan, therefore, the plan's financial statements are not included in this report.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The statement of net position and the Statement of Activities were prepared using the economic resources measurement focus and the accrual basis of accounting. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position resulting from nonexchange transactions are recognized in accordance with the requirements of GASB.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The City reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

Street/Public Works Fund - The Street/Public Works Fund is used to account for the operation of the street maintenance department. Financing is provided by state gasoline and sales taxes as well as property taxes. State law and city ordinance require that these revenues be used to maintain roads and streets.

Airport Fund – The Airport Fund is used to account for the operation of the City’s local airport. Financing is provided through property taxes, charges for services and state and federal grants.

Recreation Fund - To account for operation of City recreation programs. Financing is provided by a specific annual property tax levy to the extent miscellaneous revenues are not sufficient to provide such financing. City ordinance restricts these property taxes to financing of recreation programs.

Local Option Tax – To account for the operation of the City’s Local Option Tax over tourism.

The City reports the following major proprietary funds:

Water Fund - To account for the operations of the water system.

Sewer Fund - To account for the operations of the sewer system.

Golf Fund - To account for the operations of the City's public golf course.

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business when the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or when the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between various functions of the government when elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and products and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges for services to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. The Water and Sewer Funds also recognize, as non-operating revenue, the portion of hook-on fees intended to recover the cost of connecting new customers to the system.

Cash and Cash Equivalents

The City pools cash of all funds into common bank accounts. The accounting records of each fund reflect its interest in the pooled cash. Any deficiencies in cash of individual funds represent liabilities to other funds for cash borrowed. Cash includes amounts in demand deposits and interest-bearing demand deposits, and time deposit accounts. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the City may deposit funds in demand deposits, interest-bearing demand deposits or time deposits with state banks organized under Idaho law and national banks having their principal offices in Idaho. All cash is either covered with FDIC insurance or fully collateralized in the name of the City.

The Joint Powers Investment Pool was established as a cooperative endeavor to enable public entities of the State of Idaho to aggregate funds for investment. This pooling is intended to improve administrative efficiency and increase investment yield. The Local Government Investment Pool (LGIP) is managed by the State of Idaho Treasurer's office. The funds of the Pool are invested in certificates of deposit, repurchase agreements, and U.S. government securities. The certificates of deposit are federally insured. The U.S. government securities and the collateral for the repurchase agreements are held in trust by a safekeeping bank.

An annual audit of Joint Powers Investment Pool is conducted by the State Legislative Auditors Office. The Legislative Auditor of the State of Idaho has full access to the records of the Pool.

Since the LGIP is recorded at amortized cost and has a maturity of less than 90 days, the City considers these deposits as cash equivalents.

Idaho Code provides authorization for the investment of funds as well as to what constitutes an allowable investment. The City policy allows for investment of idle funds consistent with the Idaho State Code 67-1210 and 67-1210A.

The Code limits investments to the following general types:

Certain revenue bonds, general obligation bonds, local improvement district bonds and registered warrants of state and local governmental entities.

Time deposit accounts, tax anticipation and interest-bearing notes.

Bonds, treasury bills, debentures, or other similar obligations of the United States Government and United States Government Agencies.

Repurchase agreements secured by the above.

Custodial Credit Risk

For deposits and investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its deposits, investments or collateral securities that are in the possession of an outside party. The City's policy requires all investments, should be held in the City's name in the bank's Trust Department, or alternately in the Federal Reserve Bank.

Credit Risk

Credit risk is the risk that an issuer of debt securities or another counterparty to an investment will not fulfill its obligation is commonly expressed in terms of the credit quality rating issued by a nationally recognized statistical rating organization such as Moody's, Standard & Poor's and Fitch's. The limits on credit risk are based on Idaho Code.

Interest Rate Risk

Investments that are fixed for longer periods are likely to experience greater variability in their fair values due to future changes in interest rates. The City's policy to mitigate interest rate risk is to structure the City's portfolio so that securities mature to meet the City's cash demands and ongoing operations, thereby precluding the need to sell securities to the open market prior to their maturity and primarily invest in shorter-term securities.

Concentration of Credit Risk

When investments are concentrated in one issuer, this concentration represents heightened risk of potential loss. No specific percentage identifies when concentration risk is present. The Governmental Accounting Standards Board has adopted a principal that governments should provide note disclosure when five percent of the total entities investments are concentrated in any one issuer. Investments in obligations specifically guaranteed by the U.S. government, mutual funds, and other pooled investments are exempt from disclosure. The City's policy is to invest no more than 50% of their total investments in a single security type or with a single financial institution, with the exception of the U.S. Treasury Securities, and authorized pools.

Property Taxes Receivable

Within the governmental fund financial statement, property taxes are recognized as revenue when the amount of taxes levied is measurable, and proceeds are available to finance current period expenditures.

Available tax proceeds include property tax receivables expected to be collected within sixty days after year-end. Property taxes attach as liens on properties on January 1, and are levied in September of each year. Tax notices are sent to taxpayers during November, with tax payments scheduled to be collected on or before December 20.

Taxpayers may pay all or one-half of their tax liability on or before December 20. If one-half of the amount is paid on December 20, the remaining balance is due by the following June 20. Since the City is on a September 30 fiscal year-end, property taxes levied during September for the succeeding year's collection are recorded as deferred inflows of resources at the City's year-end and recognized as revenue in the following fiscal year for all governmental funds. Valley County bills and collects taxes for the City.

Customer Services Receivable

Amounts owed to the City for customer services are due from area residents and businesses and relate to sewer, water and golf services provided by the City. The City analyzes past due accounts and current circumstances to evaluate collectability. There is an allowance for doubtful accounts as of September 30, 2016 of \$15,696. As of September 30, 2016, accounts past 90 days totaled \$16,582.

General Fund Accounts Receivable

Amounts owed to the City for customer services are due from a variety of sources. The City analyzes past due accounts and current circumstances to evaluate collectability. There is no allowance for doubtful accounts as of September 30, 2016. As of September 30, 2016, there are no accounts past 90 days.

Inventories

Inventories are stated at the lower of cost (first-in, first-out method) or market. The cost of inventory items are recognized as expenditures in governmental funds when purchased (purchase method) and as expenses in proprietary funds when used (consumption method).

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated fixed assets are valued at their estimated fair value on the date donated. Public domain infrastructure consisting of roads, sidewalks, water and sewer lines are also reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Depreciation is recorded by use of the straight-line method. The book value of each asset is reduced by equal amounts over its estimated useful life as follows:

	Estimated Useful Life (Years)
Buildings	12 - 40
Infrastructure	20 - 50
Improvements other than buildings	10 - 40
Machinery and equipment	5 - 10

Maintenance, repairs and minor renewals are charged to operations as incurred. When an asset is disposed of, accumulated depreciation is deducted from the original cost, and any gain or loss arising from its disposal is credited or charged to operations.

The City capitalizes interim financing interest as a cost of the related asset.

Deferred Outflows of Resources

In addition to assets, the statement of financial position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflow of resources, represents a consumption of net position that applies to future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has two items that qualify for reporting in this category. The two items are as follows: the pension obligation and deferred charge on bond refunding, both reported in the government-wide statement of net position.

Deferred charge on bond refundings are deferred and amortized over the life of the bonds using the straight-line method. The net deferred amount on refundings totaled \$42,021 at September 30, 2016. Amortization of the deferred amounts on refundings was \$40,232 for the year ended September 30, 2016, and is included in the caption “Interest expense” on the statement of revenues, expenses, and changes in fund net position. There were no additions recognized in fiscal year 2016.

Bonded Indebtedness

Special assessment bonds are issued to provide funding for the construction of various local improvement districts. Collections from property owner assessments are the primary source of debt service funds to retire maturing bonds. The City is under no legal obligation to use general resources to subsidize debt payments even though the debt is recorded in the financial statements of the City.

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are capitalized and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize long-term obligations as a liability of a governmental fund when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. Bond premiums and discounts, as well as bond issuance costs, are recognized during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Revenue bonds are issued to provide funding for construction of water and sewer fund capital items. Revenues collected from water and sewer service fees are the primary source of monies to retire the bonds.

Compensated Absences Payable

The City provides personal leave to its full-time employees and sick leave to both full and part-time employees. Personal leave is either paid to employees when taken or paid to employees or their beneficiaries upon the employee's termination, retirement or death. Sick leave is either paid to employees when taken or paid to employees or their beneficiaries upon the employee's termination, retirement or death for hours accrued in excess of 500 to a maximum of either 720 or 960 hours, depending on the hire date of the employee. The amount of unpaid leave accumulated by City employees is accrued as an expense when incurred in the government-wide and the proprietary funds financial statements, which use the accrual basis of accounting. In the Governmental Funds, only the amount that normally would be liquidated with expendable available financial resources is accrued as current year expenditures. Unless it is anticipated that compensated absences will be used in excess of a normal year's accumulation, no additional expenditures are accrued. Therefore, the entire unpaid liability for the Governmental Funds is considered long-term and is recorded in the government-wide financial statement only.

Advanced Revenue

The City reports advanced revenues on its statement of net position and fund balance sheet. Advanced revenues arise when resources are received by the City before it has a legal claim to them, as when grant monies are received prior to the occurrence of qualifying expenditures. In subsequent periods, when the City has a legal claim to the resources, the liability for advanced revenue is removed from the balance sheet and the revenue is recognized.

Fund Balance Reporting

The Local Option Tax (LOT) was established in 2005 by City Ordinance No. 796 and renewed by City Ordinance No. 887 in 2011 to be effective January 1, 2012. In 2015, two additional local LOTs were established by City Ordinance 936. The LOT established in 2011 is to be used for programs and groups recommended by the LOT commission and approved by Council. The two additional LOT's established in 2015 are to be used primarily for street replacement, repair and maintenance. Highway user fees are restricted by State Statute and County laws and are legally segregated for funding of infrastructure improvements. Franchise fees are established by City Ordinance No. 862 in 2009 for the specific use of funding underground utility expansion. Drug restitutions are considered restricted because their use is restricted by State Statute 37-2744 for police investigative expenditures.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the City Council has provided otherwise in its commitment or assignment actions.

Resolution 11-19 was adopted in November of 2011 to establish minimum fund balance policies consisting of cash flow and budget stabilization. Those minimum balances to enable the City to meet debt payments and other obligations. The minimum fund balances established for cash flow are expressed as a percentage of the current years' operating budget. Those minimums are as follows: General Fund – 25%, Special Revenue Funds – 20%, Enterprise Funds – 30%, in addition to any sums required under loan or bond agreements. The minimum fund balances established for budget stabilization are expressed as a percentage of the three most recent years' average operating budgets. Those minimums are as follows: General Fund – 15%, Special Revenue Funds – 10%. In the event these minimum fund balances are used, the City shall strive to restore the fund balances to the above levels within no more than three fiscal years following the fiscal year in which the reserves were used.

The following classifications describe the relative strength of the spending constraints:

- Nonspendable fund balance—amounts that are non-cash or legally or contractually required to be maintained intact such as inventory, long-term loans receivable, property held for sale, endowment or permanent fund principal, and prepaid items.
- Restricted fund balance—amounts that have externally enforceable limitations on their uses; amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- Committed fund balance—amounts constrained to specific purposes by the City Council itself; to be reported as committed, amounts cannot be used for any other purpose unless the City Council takes the same level action to remove or change the constraint.
- Assigned fund balance—amounts the City Council intend to use for a specific purpose; intent can be expressed by the City Council or by an official designated by the City Council by resolution.
- Unassigned fund balance—amounts that are available for any purpose. Positive amounts are reported only in the general fund.

As of September 30, 2016, fund balances are composed of the following:

	General	Streets / Public Works	Airport	Recreation	Local Option Tax	Nonmajor Governmental Funds
Nonspendable						
Prepays	\$ 72,097	\$ 13,000	\$ -	\$ -	\$ -	\$ -
Inventory	-	23,364	-	-	-	-
Long-term note receivable	235,000	-	-	-	-	-
Total nonspendable	307,097	36,364	-	-	-	-
Restricted						
Local Option Tax	-	10,000	-	36,000	-	-
Carryforward Local Option Tax	-	-	-	-	-	5,000
Highway user fee	-	36,375	-	-	-	-
Franchise fees	1,450,709	-	-	-	-	-
Total restricted	1,450,709	46,375	-	36,000	-	5,000
Assigned						
Street/Public works	-	1,143,146	-	-	-	-
Airport	-	-	522,319	-	-	-
Library	-	-	-	-	-	509,350
Recreation	-	-	-	326,164	-	-
Local Option Tax	-	-	-	-	1,117,145	-
Total assigned	-	1,143,146	522,319	326,164	1,117,145	509,350
Unassigned						
Unassigned	2,994,248	-	-	-	-	-
Total unassigned	2,994,248	-	-	-	-	-
	\$ 4,752,054	\$ 1,225,885	\$ 522,319	\$ 362,164	\$ 1,117,145	\$ 514,350

Deferred Inflows of Resources

In addition to liabilities, the statement of net position will include a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has three items that qualify for reporting in this category reported on the government-wide statement of net position. They are the employer pension assumption, property taxes, and an irrevocable split-interest agreement.

The City reports unavailable revenue as a deferred inflow of resources on its statement of net position and fund balance sheet. On the government fund financial statements property taxes that are delinquent are recorded as unavailable revenue since they are not available within 60 days of the fiscal year end, however in the government-wide financial statements delinquent taxes are recognized in the year they are measurable. Taxes levied during September for the succeeding year's collection are recorded as deferred inflows of resources at the City's year-end and recognized as revenue in the following fiscal year for all governmental funds and governmental activities.

Pensions

For purposes of measuring the net pension liability and pension expense, information about the fiduciary net position of the Public Employee Retirement System of Idaho Base Plan (Base Plan) and additions to/deductions from Base Plan's fiduciary net position have been determined on the same basis as they are reported by the Base Plan. For this purpose, benefits payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Risk Management

The City is exposed to various risks of loss related to theft of, damage to, or destruction of assets. The City participates in a public entity risk pool, Idaho Counties Risk Management Pool (ICRMP), for liability, medical and disability insurance. The City's exposure to loss from its participation in ICRMP is limited to the extent of their deductible only.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Impact of Recently Issued and Adopted Accounting Pronouncements

As of October 1, 2015, the City adopted GASB Statement No. 72, *Fair Value Measurement and Application* (GASB 72). The implementation of this standard establishes new requirements on how fair value should be measured for eligible assets and liabilities, which assets and liabilities should be measured at fair value, and what information about fair value should be disclosed in the notes to the financial statements. See Note 2 for additional disclosures related to assets measured at fair value. The implementation of GASB 72 has no impact on the net position of any fund.

As of October 1, 2015, the City adopted GASB Statement No. 81 *Irrevocable Split-Interest Agreements*. The implementation of this standard establishes new requirements on the recognition of irrevocable split-interest agreements, and the recording of assets and deferred inflows of resources by the government that holds a beneficial interest in a split-interest agreement administered by a third party. There was no effect on beginning net position as a result of the implementation of this standard.

Note 2 - Cash and Cash Equivalents

At September 30, 2016, the City's cash and cash equivalents consisted of the following:

	<u>Rating</u>	<u>Maturity</u>	
Deposits			
Insured or collateralized	N/A	N/A	\$ 1,240,220
Idaho First Bank Certificate of Deposit	N/A	Sept. 25, 2017	240,000
State of Idaho Local Government			
Investment Pool (LGIP)	N/A	N/A	<u>10,798,635</u>
			<u>12,278,855</u>
Restricted cash equivalents and investments			
State of Idaho Local Government			
Investment Pool (LGIP)	N/A	N/A	1,680,313
Zion's Bank Money Market	N/A	N/A	<u>706,269</u>
			<u>2,386,582</u>
Investments of Irrevocable Split-Interest Trust Agreement - See Note 3			<u>1,181,394</u>
			<u>3,567,976</u>
Total cash, cash equivalents and investments			<u><u>\$ 15,846,831</u></u>

The Local Government Investment Pool is managed by the State of Idaho Treasurer's office. The funds of the Pool are invested in certificates of deposit, repurchase agreements, and U.S. government securities. The certificates of deposit are federally insured. The U.S. government securities and the collateral for the repurchase agreements are held in trust by a safekeeping bank.

Note 3 - Investments

Certain assets are reported at fair value in the City financial statements. Fair value is the price that would be received to sell an asset in an orderly transaction in the principal, or most advantageous, market at the measurement date under current market conditions regardless of whether the price is directly observable or estimated using another valuation technique. Inputs used to determine fair value refer broadly to the assumptions that market participants would use in pricing the asset, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available. A three-tier hierarchy categorizes the inputs as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets that can be accessed at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly. These include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the asset, and market-corroborated inputs.

Level 3 – Unobservable inputs for the asset. In these situations, the City develops inputs using the best information available in the circumstances.

Investments' fair value measurements are as follows at September 30, 2016:

Equities: Valued at fair value based on the quoted prices for active markets.

Fixed Income: Corporate bonds, U.S. Government obligations, and municipal bonds are valued by the custodians of the securities using pricing models based on credit quality, time to maturity, state interest rates, and market-rate assumptions.

Real Estate Assets: Values are based on trust statement value of real estate assets.

The related fair values of these assets are determined as follows:

	Level 1	Level 2	Level 3
Equities	\$ 578,916	\$ -	\$ -
Fixed Income			
Corporate Bonds	-	83,205	-
U.S. Treasuries	-	45,800	-
Municipal Securities	-	205,929	-
Real Estate	-	-	237,474
	<u>\$ 578,916</u>	<u>\$ 334,934</u>	<u>\$ 237,474</u>

Interest Rate Risk

Interest rate risk is defined as the risk a government may face should interest rate variances affect the fair value of investments. Investments in debt securities that are fixed for longer periods are likely to experience greater variability in their fair values due to future changes in interest rates.

As of September 30, 2016, the City had the following investments subject to interest rate risk:

Investment Type	Fair Value	Less than 1	1-5	6-10	More than 10
Corporate Bonds	\$ 83,205	\$ -	\$ 57,226	\$ 25,979	\$ -
U.S. Treasuries	45,800	7,060	12,341	7,178	19,221
Municipal Securities	205,929	20,246	48,013	89,102	48,568
	<u>\$ 334,934</u>	<u>\$ 27,306</u>	<u>\$ 117,580</u>	<u>\$ 122,259</u>	<u>\$ 67,789</u>

Credit Risk

Credit risk exists when there is a possibility the issuer or other counterparty to an investment may be unable to fulfill its obligations. GASB requires disclosure of credit quality ratings for investments in debt securities. (The credit risk ratings below are issued upon standards set by Standard and Poor's).

Investment Ratings	U.S. Treasuries	Corporate Bonds	Municipal Securities	Total
AAA	\$ -	\$ 13,518	\$ 38,479	\$ 51,997
AA	45,800	-	134,573	180,373
A	-	15,874	12,021	27,895
BBB	-	53,813	20,856	74,669
	<u>\$ 45,800</u>	<u>\$ 83,205</u>	<u>\$ 205,929</u>	<u>\$ 334,934</u>

Note 4 - Restricted Assets

Restricted assets are required to be segregated as to use and are therefore identified as restricted assets. The restricted assets are as follows:

Cash equivalents and investments	
General Fund	\$ 2,495,142
Water Fund	366,565
Sewer Fund	706,269
	\$ 3,567,976
	\$ 3,567,976

Note 5 - Intergovernmental and Grant Receivables

The following summarizes the intergovernmental receivables at September 30, 2016:

<u>Source</u>	
State of Idaho	
Revenue sharing	\$ 148,909
Highway users	36,375
United States Forest Service	16,301
	\$ 201,585
	\$ 201,585

Grants owed to the City at September 30, 2016, by source are:

Idaho Department of Environmental Quality	\$ 40,339
Federal Aviation Administration	25,689
Idaho Department of Parks & Recreation	14,652
United States Department of Transportation	7,601
Idaho Community Development Block Grant	7,262
	\$ 95,543
	\$ 95,543

Governmental funds report unavailable revenue in connection with property taxes receivables that are not considered to be available to liquidate liabilities of the current period as deferred inflows of resources. Governmental funds also defer revenue recognition in connection with resources that were raised for the subsequent fiscal year.

At the end of the current fiscal year, the various components reported in the governmental funds as deferred inflows of resources were as follows:

	<u>Delinquent Taxes</u>	<u>Subsequent Tax Levy</u>	<u>Total</u>
Property taxes (general fund)	\$ 44,650	\$ 3,279,955	\$ 3,324,605
Property taxes (street fund)	66,695	1,286,681	1,353,376
Property taxes / hangar lease (airport fund)	(357)	55,453	55,096
Property taxes (recreation fund)	8,675	266,801	275,476
Property taxes (nonmajor fund)	19,513	388,292	407,805
Total unavailable revenue	<u>\$ 139,176</u>	<u>\$ 5,277,182</u>	<u>\$ 5,416,358</u>

Note 6 - Capital Assets

Changes in capital assets of governmental activities are as follows:

	<u>Oct. 1, 2015</u>	<u>Additions</u>	<u>Transfers</u>	<u>Deletions</u>	<u>Sept. 30, 2016</u>
Governmental Activities					
Capital assets, not depreciated

Total accumulated depreciation	<u>23,298,103</u>	<u>1,581,798</u>	<u>-</u>	<u>-</u>	<u>24,879,901</u>
Total net capital assets, depreciated	<u>37,501,295</u>	<u>(1,370,374)</u>	<u>2,219,185</u>	<u>-</u>	<u>38,350,106</u>
Business-type activities capital assets, net	<u>\$ 40,870,354</u>	<u>\$ (1,311,401)</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 39,558,953</u>

Depreciation expense was charged to functions/programs of the City as follows:

Governmental activities		
General government		\$ 118,671
Recreation		105,157
Public works / Streets		647,706
Finance		6,800
Police		32,877
Parks		65,965
Library		2,700
Community development		600
Airport		<u>267,785</u>
Total depreciation expense - governmental activities		<u>\$ 1,248,261</u>
Business-type activities		
Water		\$ 754,410
Sewer		687,936
Golf		<u>139,452</u>
Total depreciation expense - business-type activities		<u>\$ 1,581,798</u>

Note 7 - Interfund Receivables, Payables, and Transfers

Incoming receipts and outgoing disbursements are sometimes deposited to/disbursed from one fund on behalf of another fund. At that time, a corresponding receivable/payable and operating transfer is recorded between the funds. The composition of interfund balances as of September 30, 2016 is as follows:

Amounts due to the General Fund from:		
Sewer, long-term receivable balance	\$	150,000
Golf, long-term receivable balance		85,000
		\$ 235,000
Amounts due to the Street / Public Works Fund from:		
General	\$	10,000
Golf		5,703
		\$ 15,703
Amounts due to the Recreation Fund from:		
Due from Urban Renewal Agency	\$	10,000
General		36,000
		\$ 46,000
Amounts due to the Capital Projects Fund from:		
Urban Renewal Agency	\$	59,938
Water		4,184
General		13,867
		\$ 77,989
Amounts due to the Golf Fund from:		
General		\$ 30,000

Interfund transfers were made for the purpose of funding operations and the settlement of internal balances.

Interfund transfers for the year ended September 30, 2016, were:

Interfund transfers	Golf Fund	Street / Public Works	Airport	Recreation	Nonmajor Governmental Funds
Transfers out					
General	\$ 135,000	\$ 135,000	\$ 56,668	\$ 626,200	\$ 13,867
Water	-	-	-	-	4,184
Recreation	10,120	-	7,200	-	-
Urban Renewal Agency	-	-	-	35,000	59,938
	\$ 145,120	\$ 135,000	\$ 63,868	\$ 661,200	\$ 77,989

Note 8 - Long-Term Debt

The following is a summary of changes in long-term liabilities of the City for the year ended September 30, 2016:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Current Portion</u>
<i>Governmental Activities</i>					
Compensated absences	\$ 137,554	\$ 16,491	\$ 11,806	\$ 142,239	\$ -
Governmental activities long-term liabilities	<u>\$ 137,554</u>	<u>\$ 16,491</u>	<u>\$ 11,806</u>	<u>\$ 142,239</u>	<u>\$ -</u>
<i>Business-type Activities</i>					
Compensated absences	\$ 59,739	\$ 5,262	\$ 65	\$ 64,936	\$ -
Revenue bonds					
\$5.63 million 2003 water revenue refunding bonds	1,345,000	-	430,000	915,000	450,000
\$2.78 million 2004 revenue bonds	1,330,000	-	180,000	1,150,000	190,000
\$7.095 million 2008 revenue bonds	6,135,000	-	215,000	5,920,000	225,000
Notes payable					
Department of Environmental Quality	2,951,044	-	302,154	2,648,890	308,473
	<u>11,761,044</u>	<u>-</u>	<u>1,127,154</u>	<u>10,633,890</u>	<u>1,173,473</u>
Premium on 2004 revenue bonds	20,029	-	5,167	14,862	-
Premium on 2008 revenue bonds	33,953	-	3,654	30,299	-
Total bonds and notes payable	<u>11,815,026</u>	<u>-</u>	<u>1,135,975</u>	<u>10,679,051</u>	<u>1,173,473</u>
Business-type activities long-term liabilities	<u>\$ 11,874,765</u>	<u>\$ 5,262</u>	<u>\$ 1,136,040</u>	<u>\$ 10,743,987</u>	<u>\$ 1,173,473</u>

Business-type activities long-term debt at September 30, 2016 is comprised of the following:

Revenue Bonds

\$5,630,000 water revenue refunding bonds due in annual principal installments of \$450,000 to \$465,000 through 2018; interest accrues at 3.6% to 3.7%.	\$ 915,000
--	------------

The bonds maturing on or after September 1, 2015 are subject to redemption at the option of the City, in whole or in part on any interest payment date, on or after September 1, 2013, at a price of par plus accrued interest, if any, to the date of redemption.

\$7,095,000 sewer revenue bonds due in annual principal installments starting September 2011 of \$225,000 to \$710,000 through September 2029; interest accrues at 4% to 5%.	5,920,000
Premium on sewer revenue bonds	30,299

\$2,780,000 sewer revenue bonds due in annual principal installments of \$190,000 to \$225,000 through 2022; interest accrues at 3.8% to 4.3%.	1,150,000
Premium on sewer revenue bonds	14,862

Total revenue bonds	<u>8,030,161</u>
---------------------	------------------

Note Payable

Note payable to State of Idaho, for \$5,908,755. Due in semi-annual installments of \$179,955 through 2024; interest accrues at 2.0%, unsecured.	<u>2,648,890</u>
--	------------------

Total note payable	<u>2,648,890</u>
--------------------	------------------

Total business-type activities	<u><u>\$ 10,679,051</u></u>
--------------------------------	-----------------------------

The annual requirements to amortize all debt outstanding as of September 30, 2016, are as follows:

	Business-type Activities	
	Principal	Interest
2017	\$ 1,173,473	\$ 402,121
2018	1,209,673	363,501
2019	770,998	322,771
2020	792,450	298,319
2021	819,032	272,922
2022-2026	3,833,264	822,625
2027-2029	2,035,000	186,074
	\$ 10,633,890	\$ 2,668,333

In Idaho, a municipality is allowed a general obligation bond debt limit of 2% of the market valuation of the real and personal property in its taxing area. The City's legal debt limits for 2016, based on data available from Valley County as of September 30, 2016, would be approximately \$21,086,000. The City has no aggregate general obligation bond indebtedness on September 30, 2016.

Note 9 - Leases

The City leases four pieces of Caterpillar heavy equipment under a long-term lease / purchase agreement. The terms of the agreement call for transfer of ownership and a balloon payment at the end of the lease, however, the equipment dealer has entered into a buyback guarantee for the amount of the balloon payment, which the City intends to exercise. The lease expires in October 2017 (fiscal year 2018) wherein the balloon payment of \$557,000 is due. Based on the terms of the agreement and the intent of the City, the lease has been reported as an operating lease.

Future minimum lease payments are as follows, not including the balloon payment are as follows:

2017	\$ 52,496
	\$ 52,496

Note 10 - Defined Benefit Pension Plan

Plan Description

The City contributes to the Base Plan which is a cost-sharing multiple-employer defined benefit pension plan administered by Public Employee Retirement System of Idaho (PERSI or System) that covers substantially all employees of the State of Idaho, its agencies and various participating political subdivisions. The cost to administer the plan is financed through the contributions and investment earnings of the plan. PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Responsibility for administration of the Base Plan is assigned to the Board comprised of five members appointed by the Governor and confirmed by the Idaho Senate. State law requires that two members of the Board be active Base Plan members with at least ten years of service and three members who are Idaho citizens not members of the Base Plan except by reason of having served on the Board.

Pension Benefits

The Base Plan provides retirement, disability, death and survivor benefits to eligible members or beneficiaries. Benefits are based on members' years of service, age, and highest average salary. Members become fully vested in their retirement benefits with five years of credited service (5 months for elected or appointed officials). Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. The annual service retirement allowance for each month of credited service is 2.0% (2.3% for police) of the average monthly salary for the highest consecutive 42 months.

The benefit payments for the Base Plan are calculated using a benefit formula adopted by the Idaho Legislature. The Base Plan is required to provide a 1% minimum cost of living increase per year provided the Consumer Price Index increases 1% or more. The PERSI Board has the authority to provide higher cost of living increases to a maximum of the Consumer Price Index movement or 6%, whichever is less; however, any amount above the 1% minimum is subject to review by the Idaho Legislature.

Member and Employer Contributions

Member and employer contributions paid to the Base Plan are set by statute and are established as a percent of covered compensation and earnings from investments. Contribution rates are determined by the PERSI Board within limitations, as defined by state law. The Board may make periodic changes to employer and employee contribution rates (expressed as percentages of annual covered payroll) if current rates are actuarially determined to be inadequate or in excess to accumulate sufficient assets to pay benefits when due.

The contribution rates for employees are set by statute at 60% of the employer rate for general employees and 72% for police. As of June 30, 2016, it was 6.79% for general employees and 8.36% for police. The employer contribution rate as a percentage of covered payroll is set by the Retirement Board and was 11.32% for general employees and 11.66% for police. The City's contributions were \$409,600 for the year ended September 30, 2016.

Pension Liabilities, Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2016, the City reported a liability for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's share of contributions in the Base Plan pension plan relative to the total contributions of all participating PERSI Base Plan employers. At July 1, 2015, the City's proportion was 0.1223294 percent.

For the year ended September 30, 2016, the City recognized pension expense of \$314,033. At September 30, 2016, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 247,094
Changes in assumptions or other inputs	55,124	-
Net difference between projected and actual earnings on pension plan investments	1,206,971	-
Changes in the employer's proportion and differences between the employer's contributions and the employer's proportionate contributions	-	563,953
City contributions subsequent to the measurement date	-	42,140
Total	93,106 \$ 1,355,201	- \$ 853,187

The \$93,106 reported as deferred outflows of resources related to pensions resulting from Employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending September 30, 2017.

The average of the expected remaining service lives of all employees that are provided with pensions through the System (active and inactive employees) determined at July 1, 2015, the beginning of the measurement period ended June 30, 2016, is 4.9 and 5.5 years for the measurement period June 30, 2015.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (revenue) as follows:

Year ended June 30:	
2017	\$ (8,875)
2018	(8,875)
2019	276,304
2020	150,355

Actuarial Assumptions

Valuations are based on actuarial assumptions, the benefit formulas, and employee groups. Level percentages of payroll normal costs are determined using the Entry Age Normal Cost Method. Under the Entry Age Normal Cost Method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated as a level percentage of each year's earnings of the individual between entry age and assumed exit age. The Base Plan amortizes any unfunded actuarial accrued liability based on a level percentage of payroll. The maximum amortization period for the Base Plan permitted under Section 59-1322, Idaho Code, is 25 years.

The total pension liability in the June 30, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Assumptions	
Inflation	3.25%
Salary inflation	4.25% - 10.00%
Investment rate of return	7.10%, net of pension plan investment expenses
Cost-of-living adjustments	1%

Mortality rates were based on the RP – 2000 combined table for healthy males or females as appropriate with the following offsets:

- No offset for male police
- Forward one year for female police
- Set back one year for all general employees and all beneficiaries

An experience study was performed for the period July 1, 2007 through June 30, 2013 which reviewed all economic and demographic assumptions other than mortality. Mortality and all economic assumptions were studied in 2014 for the period from July 1, 2009 through June 30, 2013. The Total Pension Liability as of June 30, 2016 is based on the results of an actuarial valuation date of July 1, 2016.

The long-term expected rate of return on pension plan investments was determined using the building block approach and a forward-looking model in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Even though history provides a valuable perspective for setting the investment return assumption, the System relies primarily on an approach which builds upon the latest capital market assumptions. Specifically, the System uses consultants, investment managers, and trustees to develop capital market assumptions in analyzing the System's asset allocation.

The assumptions and the System's formal policy for asset allocation are shown below. The formal asset allocation policy is somewhat more conservative than the current allocation of System's assets. The best-estimate range for the long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation.

The capital market assumptions are as of January 1, 2016:

Capital Market Assumptions

Asset Class	<u>Expected Return</u>	<u>Expected Risk</u>	<u>Strategic Normal</u>	<u>Strategic Ranges</u>
Equities			70%	66%-77%
Broad US Equities	9.15%	19.00%	55%	50%-65%
International	9.25%	20.20%	15%	10%-20%
Fixed Income	3.05%	3.75%	30%	23%-33%
Cash	2.25%	90.00%	0%	0%-5%
Total Fund	<u>Expected Return</u>	<u>Expected Inflation</u>	<u>Expected Real Return</u>	<u>Expected Risk</u>
Actuary	7.00%	3.25%	3.75%	N/A
Portfolio	6.58%	2.25%	4.33%	12.67%

Actuarial Assumptions

Assumed Inflation - Mean	3.25%
Assumed Inflation - Standard Deviation	2.00%
Portfolio Arithmetic Mean Return	8.42%
Portfolio Long-term Expected Geometric Rate of Return	12.59%
Portfolio Long-Term Expected Geometric Rate of Return	7.50%
Assumed Investment Expenses	0.40%
Long-Term Expected Geometric Rate of Return, Net of Investment Expenses	<u>7.10%</u>

Discount Rate

The discount rate used to measure the total pension liability was 7.10%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate. Based on these assumptions, the pension plans' net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term expected rate of return was determined net of pension plan investment expense but without reduction for pension plan administrative expense.

Sensitivity of the Employer's proportionate share of the net pension liability to changes in the discount rate.

The following presents the Employer's proportionate share of the net pension liability calculated using the discount rate of 7.10 percent, as well as what the Employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

Assumed Inflation - Standard Deviation	2.00%
Portfolio Arithmetic Mean Return	8.42%
Portfolio Long-term Expected Geometric Rate of Return	12.59%

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERSI financial report.

PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Payables to the Pension Plan

At September 30, 2016, the City reported payables to the defined benefit pension plan of \$0 for legally required employer contributions and \$0 for legally required employee contributions which had been withheld from employee wages but not yet remitted to PERSI.

Note 11 - Pledged Revenue

The City has pledged future water customer revenues, net of specified operating expenses, to repay \$5.6 million in water system revenue bonds issued in July 2003. Proceeds from the bonds provided financing to refund the 1994 and 1996 water revenue bonds. The bonds are payable solely from water customer net revenues and are payable through 2024. Annual principal and interest payments on the bonds are expected to require less than 22 percent of net revenues. The total principal and interest remaining to be paid on the bonds is \$1,444,065. Principal and interest paid for the current year and total customer net revenues were \$478,455 and \$2,112,439, respectively.

The City has pledged future water customer revenues, net of specified operating expenses, to repay a \$5.9 million drinking water facility promissory note payable to the State of Idaho signed in April 2004. Proceeds from the note provided financing to complete phase II of the water treatment facility. The bonds are payable solely from drinking water facility revenues and are payable through 2024. Annual principal and interest payments on the note are expected to require less than 20 percent of net revenues. The total principal and interest remaining to be paid on the bonds is \$3,329,525. Principal and interest paid for the current year and total customer net revenues were \$359,668 and \$2,112,439, respectively.

The City has pledged future sewer customer revenues, net of specified operating expenses, to repay \$2.7 million in sewer system revenue bonds issued in November 2004. Proceeds from the bonds provided financing to refund the 2001 loan from the State of Idaho Department of Environmental Quality. The bonds are payable solely from sewer customer net revenues and are payable through 2022. Annual principal and interest payments on the bonds are expected to require less than 14 percent of net revenues. The total principal and interest remaining to be paid on the bonds is \$1,545,630. Principal and interest paid for the current year and total customer net revenues were \$235,630 and \$2,091,606, respectively.

The City has pledged future sewer customer revenues, net of specified operating expenses, to repay \$7 million in sewer system revenue bonds issued in May 2008. Proceeds from the bonds provided financing to fund municipality's warrant issued for payment of the judgment in the case of Wausau v. St. Clair Contractors. The bonds are payable solely from sewer customer net revenues and are payable through 2029. Annual principal and interest payments on the bonds are expected to require less than 25 percent of net revenues. The total principal and interest remaining to be paid on the bonds is \$8,641,249. Principal and interest paid for the current year and total customer net revenues were \$494,250 and \$2,091,606, respectively.

Note 12 - Contingent Liabilities

Under the terms of federal and state grants, periodic audits are required and certain costs may be questioned as not being appropriate expenditures under the terms of the grants. Any disallowed claims, including amounts already collected, could become a liability of the City. City management believes disallowances, if any, will be immaterial.

The City has been named as defendant in various legal actions, the results of which are not presently determinable. However, in the opinion of the City's management and legal counsel, the amount of losses that might be sustained, if any, would not materially affect the City's financial position.

The City has entered into various commitments to developers for certain expansion to infrastructure projects. These are contingent on the developments being constructed and no amount has been assigned or accrued.

Note 13 - Component Unit

The Urban Renewal Agency (URA) or (the Agency) is created by and exists under the Idaho Urban Renewal Law of 1965, as amended, and is a separate legal entity.

The following is a summary of the disclosures required for a fair presentation of the component unit in the City's financial statements.

Cash Equivalents

Cash equivalents include amounts in money market accounts and The Local Government Investment Pool (LGIP), which managed by the State of Idaho Treasurer's office. At year-end, the carrying amount of deposits, reported as cash and cash equivalents was \$368,051 and \$479,196. The funds of the LGIP are invested in certificates of deposit, repurchase agreements, and U.S. government securities. The certificates of deposit are federally insured. The U.S. government securities and the collateral for the repurchase agreements are held in trust by a safekeeping bank.

Deposits and Investments

Investments are stated at fair value, as determined by quoted market prices, except for any certificates of deposit, which are non-participating contracts, and are therefore carried at amortized cost. Interest earned is allocated on a basis of average investment balance. Idaho Code provides authorization for the investment of funds as well as to what constitutes an allowable investment. The Agency's policy allows for investment of idle funds consistent with the Idaho State Code 67-1210 and 67-1210A.

The Code limits investments to the following general types:

Certain revenue bonds, general obligation bonds, local improvement district bonds and registered warrants of state and local governmental entities.

Time deposit accounts, tax anticipation and interest-bearing notes.

Bonds, treasury bills, debentures, or other similar obligations of the United States Government and United States Government Agencies.

Repurchase agreements secured by the above.

Investments in certificates of deposits are stated at amortized cost. Investments in U.S. Treasury securities are stated at amortized cost. Investments in the Joint Powers Investment Pool and repurchase agreements are valued at fair value.

Custodial Credit Risk

For deposits and investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Agency will not be able to recover the value of its deposits, investments or collateral securities that are in the possession of an outside party. The URA does not have a policy for custodial credit risk outside of the deposit and investment agreements.

Credit Risk

Credit risk is the risk that an issuer of debt securities or another counterparty to an investment will not fulfill its obligation is commonly expressed in terms of the credit quality rating issued by a nationally recognized statistical rating organization such as Moody's, Standard & Poor's and Fitch's. The investments of the URA are not rated. The URA does not have a restrictive policy regarding rated investments.

Interest Rate Risk

Investments that are fixed for longer periods are likely to experience greater variability in their fair values due to future changes in interest rates. The URA is invested in money market funds with an average maturity of nine days. The URA does not have a policy concerning maturities of investments.

Concentration of Credit Risk

When investments are concentrated in one issuer, this concentration represents heightened risk of potential loss. No specific percentage identifies when concentration risk is present. The Governmental Accounting Standards Board has adopted a principal that governments should provide note disclosure when five percent of the total entities investments are concentrated in any one issuer. Investments in obligations specifically guaranteed by the U.S. government, mutual funds, and other pooled investments are exempt from disclosure. The URA has no policy limiting on the amount it may invest in any one issuer.

At September 30, 2016, the URA's cash equivalents consisted of the following:

Cash equivalents		
US Bank Money Market Account	\$	16,798
Local General Investment Pool		<u>351,253</u>
	<u>\$</u>	<u>368,051</u>
Restricted cash equivalents		
First American Treasury Obligation, Class D	<u>\$</u>	<u>479,196</u>

The money market funds are managed by First American Funds. The funds are invested in repurchase agreements and U.S. Treasury Strips, Notes, and Bonds. The U.S. government securities and the collateral for the repurchase agreements are held in trust by a safekeeping bank.

Changes in General Fixed Assets

Changes in general fixed assets are as follows:

	Balance Oct. 1, 2015	Additions	Deletions	Balance Sept. 30, 2016
Capital assets, not depreciated				
Land	\$ 293,115	\$ -	\$ -	\$ 293,115
Total capital assets, not depreciated	<u>293,115</u>	<u>-</u>	<u>-</u>	<u>293,115</u>
Capital assets, depreciated				
Improvements	<u>3,498,650</u>	<u>-</u>	<u>-</u>	<u>3,498,650</u>
Total capital assets, depreciated	<u>3,498,650</u>	<u>-</u>	<u>-</u>	<u>3,498,650</u>
Less accumulated depreciation				
Improvements	<u>1,022,268</u>	<u>340,756</u>	<u>-</u>	<u>1,363,024</u>
Total accumulated depreciation	<u>1,022,268</u>	<u>340,756</u>	<u>-</u>	<u>1,363,024</u>
	<u>\$ 2,769,497</u>	<u>\$ (340,756)</u>	<u>\$ -</u>	<u>\$ 2,428,741</u>

Unavailable Revenue

The URA reports unavailable revenue in connection with property taxes receivables that are not considered to be available to liquidate liabilities of the current period as deferred inflows of resources. The URA also defers revenue recognition in connection with resources that were raised for the subsequent fiscal year. At the end of the current fiscal year, deferred inflows of resources were reported for property taxes.

Long-term Debt

The following is a summary of changes in long-term debt of the URA for the year ended September 30, 2016:

	<u>Long-term Debt at Oct. 1, 2015</u>	<u>Debt Issued</u>	<u>Debt Retired</u>	<u>Long-term Debt at Sept. 30, 2016</u>
Revenue bonds				
2006 agency bonds	\$ 2,465,000	\$ -	\$ 370,000	\$ 2,095,000
Premium on agency bonds	<u>6,869</u>	<u>-</u>	<u>1,889</u>	<u>4,980</u>
	<u>\$ 2,471,869</u>	<u>\$ -</u>	<u>\$ 371,889</u>	<u>\$ 2,099,980</u>

Long-term debt at September 30, 2016 is comprised of the following:

\$5,010,000 agency bonds consisting of \$4,120,000 in serial bonds due in annual principal installments of \$385,000 to \$420,000 through 2019, and \$890,000 in term bonds due in 2020 and 2021 for \$435,000 and \$455,000, respectively; interest accrues at 4.25% to 4.5%. 100% of the property tax revenues are pledged toward this debt. \$ 2,095,000

The annual requirements to amortize all debt outstanding as of September 30, 2016, are as follows:

	<u>Component Unit</u>	
	<u>Principal</u>	<u>Interest</u>
2017	\$ 385,000	\$ 91,263
2018	400,000	74,900
2019	420,000	57,900
2020	435,000	40,050
2021	<u>455,000</u>	<u>20,475</u>
	<u>\$ 2,095,000</u>	<u>\$ 284,588</u>

Note 1 - Budgets and Budgetary Accounting

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

Prior to September 1, the City Council and City Manager prepare a proposed operating budget for the fiscal year commencing on October 1. The operating budget includes proposed expenditures and the means of financing them.

Public hearings are conducted at City Hall to obtain taxpayer comments.

Prior to October 1, the budget is legally enacted through passage of an appropriation ordinance.

Budgets are adopted on a basis consistent with generally accepted accounting principles for the general, special revenue, capital projects and debt service funds. All annual appropriations lapse at fiscal year-end. The City Manager is authorized to transfer budget amounts within departments and between departments within any fund. Revisions that alter the total expenditure appropriation of any fund must be approved by the City Council. State law does not allow fund expenditures to exceed fund appropriations.

Formal budgetary integration is employed as a management control device during the year for all funds.

Independent Auditor’s Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Members of the City Council
City of McCall, Idaho
McCall, Idaho

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of City of McCall, Idaho as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise City of McCall, Idaho’s basic financial statements and have issued our report thereon dated March 9, 2017.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of McCall, Idaho’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of McCall, Idaho’s internal control. Accordingly, we do not express an opinion on the effectiveness of City of McCall, Idaho’s internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified a certain deficiency in internal control that we consider to be a material weakness.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and responses to be a material weakness, 2016-01.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of McCall, Idaho's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

City of McCall, Idaho's Response to Finding

City of McCall, Idaho's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. City of McCall, Idaho's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in cursive script that reads "Eide Bailly LLP".

Boise, Idaho

Financial Statement Findings

2016-01

Criteria:

Management should have an internal control system in place designed to provide for the preparation of the financial statements being audited. This includes proper reporting on a modified accrual basis of accounting and the ability to convert the trial balance from modified accrual to full accrual under the requirements of the Governmental Accounting Standards Board (GASB). It also includes the ability to prepare the footnote disclosures required by GASB. Additionally, this includes posting of all material adjustments necessary to close the year and accurately reflect the activity of the City throughout the year.

Condition:

An internal control system design must include elements to accurately prepare financial statements without adjustments by the auditor. As auditors, we were requested to assist management in the preparation of the financial statements from the trial balances. This preparation included certain accrual closing entries, government-wide reporting conversion entries and footnotes.

Effect:

Management relied on the auditing firm to report financial data in accordance with generally accepted accounting principles. The auditor proposed certain accrual closing entries, government-wide reporting conversion entries and prepared the footnotes and reported financial data in accordance with generally accepted accounting principles.

Cause:

The size of the City and the limited number of accounting personnel makes it difficult to implement this level of internal control.

Recommendation:

Management should develop written procedures for year-end closure to ensure that all year-end adjustments are recorded and that the financial information is recorded accurately and in a timely manner. Management and those charged with governance should assess the benefit of implementing an internal control system that includes the preparation of the financial statements and related footnotes in relation to the cost or other considerations.

Response and Action Plan of Management:

Management will work to develop procedures for year-end closing entries. Management will consider the cost and benefits of preparing the report in future years.
